

AUTHENTIC  
**ANGIE'S KETTLE CORN**

*The perfect balance of sweetness & salt*

◦AKC Allergen Statement◦

At Angie's Kettle Corn, we understand that our success is based on the safety and quality of our products. Our Quality Assurance Department oversees all Food Safety and Quality Programs within the production facility, including an Allergen Control Program.

The Food Allergen labeling and Customer Protection Act of 2004 (FALCPA) requires all regulated allergens to be declared on the labels of food products and food ingredients. Ingredients used in the production of our kettle corn products (Angie's Original, Angie's Caramel and Angie's Lite) are free all of the regulated food allergens (milk, eggs, fish, crustacean shellfish, tree nuts, peanuts, wheat, and soybeans).
