

AUTHENTIC  
**ANGIE'S KETTLE CORN**

*The perfect balance of sweetness & salt*

◦AKC Gluten Free Statement◦

At Angie's Kettle Corn, we understand that our success is based on the safety and quality of our products. Our Quality Assurance Department oversees all Food Safety and Quality Programs within the production facility, including an Allergen Control Program.

One component of our product that we pay particular attention to is our Gluten-Free labeling. We at Angie's have been certified by the The Gluten-Free Certification Organization and provided International Patent approval to use their logo on our bags.

Angie's performs constant testing as recommended by the The Gluten-Free Certification Organization, utilizing the very same testing they do during their audits and visits. We couple this with a very effective monitoring system of all of our suppliers to ensure nothing that enters our plant contains any gluten/ceciac unfriendly proteins.

We at Angie's take great pride in our ability to provide a natural, healthy, allergen and gluten-free product for our customers enjoy, and will go to great lengths to ensure we stay this way.
